PROFILE SUMMARY

Motivated South African Logistics and Supply Chain Management student with a strong interest in transportation, procurement, supply chain operations and the movement of commodities within the mining sector.

Currently pursuing tertiary studies in Logistics, with a long-term ambition to build a career at the intersection of mining, logistics, transportation and entrepreneurship.

Particularly interested in understanding how mining companies manage the movement of commodities, materials and services, and how effective logistics, procurement and supplier relationships contribute to operational performance.

Committed to completing my qualification while gaining practical industry exposure and developing the commercial, operational and entrepreneurial skills required to contribute meaningfully to the mining and logistics industry.

WHAT I AM LOOKING FOR

- Education support — bursary, tuition assistance or sponsorship to complete my Logistics qualification.
- Workplace experience — learnership, internship, job shadowing, vacation work or volunteer placement.
- Mentorship — guidance to grow professionally and, in time, develop a compliant logistics/transport business.
- Supply-chain opportunity — future consideration as a logistics/transport supplier or intermediary, subject to your organisation's procurement requirements.
